ATR440 Payroll Clock

TRACK YOUR EMPLOYEE'S WORK TIME EASILY & ACCURATELY

Simple To Use, Easy To Audit Payroll Recorder Designed To Meet The Demands Of Your Business.

■ Employee's simply drop their time card in the payroll recorder and the ATR440 automatically positions and prints on the time card.

■ Quickly spot non-scheduled punching with the two-color printing feature. Makes auditing time cards quick and easy.

■ Never needs resetting, always on time. Auto month, day/date changes and automatic daylight savings time adjustment.

■ Select pay period options to meet your payroll specifications: weekly, bi-weekly, semi-monthly, or monthly. Select the date/day, hour 1-12 or 0-23 hour format and choose between minutes, tenths, twentieths, or hundredths of hours.

The ATR440 Is A Six Column, Semi Or Fully Automatic, Across The Card, Electronic Payroll Recorder.

■ Utilizes a standard 3 3/8" wide card that accommodates most standard time card spacing.

ATR440 Payroll Clock

The ATR440 is a Manual or Automatic across the card payroll recorder. The day progresses across the card in six columns IN, OUT, IN, OUT, IN, OUT. The week progresses down the card in 7, 14, or 16, depending on the pay period. The ATR440 features vertical and horizontal adjustments to perfectly align print registrations on the time card.

PRODUCT SPECIFICATIONS

Selectable Print Format :
Includes day, date, 1-12 hours, 0-23 hours, minutes, tenths, twentieths or hundredths of hours.

Day Of Week Languages:
English, Italian, German, French, Spanish, Japanese or numeric day (Sunday = D1) or blank (prints time only).

Battery Back-up:
Includes a full function battery back up that permits the recorder to operate as if under AC power; punching, two color, auto daylight savings adjustment and auto cross shifting. The battery is designed to handle up to 200 punches. The program date and time will also be maintained.

Signal Control:
A signal control device allows for external horns, bells or buzzers to sound denoting start and stop work schedules. A total of 42 signals may be programmed in the ATR440. You may select the day of week you wish the signal to be activated and the length (duration) of the signal from 1 to 99 seconds.

The recorder includes a built-in tone which can sound a melody, ideal for an office environment eliminating the need for external devices.

EASY TO USE!
Just Insert Card To Print.

Two Color Ribbon Control:
Permits 18 color changes per day to allow easy "flagging" of non-scheduled punching.
Replacement Ribbon: 39-0126-000

Day Advance/Day Change:
User defined allowing for employees to work through midnight.

Voltage:
The ATR440 can operate on either 125VAC/60Hz or 240VAC/50Hz power source. Voltage selection is accomplished by a switch on bottom of recorder.

Accomodates Most 3 3/8" Wide Cross Shift Time Cards Used In The USA

Adjusts to fit most weekly, bi-weekly, semi-monthly, & monthly time cards.
