PC INTERFACE TIME & ATTENDANCE SYSTEM

Choice Of English Or Spanish!

Eliminates The Need For Time Cards!

Employees Clock In & Out With The Swipe Of A Badge!

Easy To Use & Priced Right!

PC INTERFACE ALLOWS:

- Punch Editing from PC

- Easy entry of employee data, clock rules, and shift/schedule rules via the computer

- Signal control to activate up to 24 daily signals. Each signal has a variable duration and may be set by the day of the week. (Signal device not included)

- "Detail" feature explains punch calculations while editing

NO MORE Manual Calculations For Reports.

Reports are easy to generate with Time Q + Plus. Simply preview reports on your PC monitor and send to the computer printer, PC screen or save to an ASCII file. All reports can be sorted by name, badge number, employee number, or shift. Available reports are Hours Summary, Who's In, Who's Out, Employee Profiles, Time Cards, and Clock Rules. The Time Q + Plus stores data for the previous and current pay period.

Punches which are edited using the PC Interface are tagged & stored in the database.

Time & attendance data exports to numerous payroll packages.
