

multi-purpose time recorder

The 5000E Plus is a multi-function electronic time recorder that can operate as a time clock, time stamp or numbering machine. The unit can be easily programmed to print in any one of 29 preset print formats, or configured for custom printing on up to three separate lines. The optional relay board even allows for remote bell ringing or time synchronization from a master clock. The built-in lithium battery keeps the time and settings during power interruptions for up to five years and the optional rechargeable Ni-Cad battery pack will allow the unit to remain fully operational for up to 72 hours or 200 prints without AC power. All of these advanced time recording features are housed in a compact and attractive case that allows for simple tabletop or secure wall installation.

***OPERATES AS A TIME CLOCK,
TIME STAMP OR A
NUMBERING MACHINE***

5000E *Plus* ELECTRONIC TIME RECORDER

LATHEM TIME

FEATURES

- Never needs resetting and keeps time during power failures
